Chapter II. Summary

2.1. Statement

All parts of this product, including accessories and software, all the intellectual property right are owned by Shanghai Goodview Electronic Technology Co., Ltd. (hereinafter refers to "Goodview") or authorizes the relevant subjects xxxx to use. Without the permission of the right subjects, no copying or translation is allowed.

There is no any form of guarantee, position expression or other implication in this manual, if there is any direct or indirect loss of data, loss of profits or termination of business caused by the product information mentioned in this manual, Goodview and its employees are not liable for it. In addition to this, the product specifications and information mentioned in this manual are only for reference and will be updated at any time without further notice. Faults or damages caused by the following factors are not covered by free warranty:

- Damage caused by natural disasters (floods, fires, earthquakes, lightning strikes, typhoons, etc.), force majeure or inadvertent use of man-made operations.
- Self-assemble, repair, or send the product to a maintenance shop not authorized or certified by Goodview for inspection and repair.
- Damages and faults caused by users who may or request a third party to modify, repair, alter specifications and install, add and expand parts that are not sold, authorized or approved by our company without authorization.
- Usage problems and faults caused by improper installation and setting of software by users themselves.
- Problems and malfunctions caused by computer viruses.
- Warranty identification label of our company is torn or unrecognizable.
- Other problems and faults caused by abnormal use.

The product names mentioned in the user's manual are only for identification, and these names may belong to registered trademarks or copyrights of other companies.

Goodview reserves the right to change any or all specifications without notice. The information contained in this document is subject to change without notice.

For the latest upgrade information of product specifications, please call to Shanghai Goodview Electronic Technology Co., Ltd.

2.2. Safety instructions

Safety of Electrical

- ✧ In order to avoid serious damage caused by possible electric shock, please remove the power cord of the equipment temporarily from the power socket before moving the equipment
- ✧ When you want to add or remove the hardware device in the system, you must connect the data line of the device first and then the power line. If possible, unplug the power cord of the device before installing the hardware device.
- ✧ Before you connect or unplug any data lines from the module, make sure that all the power lines have been unplugged beforehand.
- ✧ Before using an extension card or an adapter card, we suggest that you seek for professional assistance first. These devices may interfere with the grounding circuit.
- ✧ Make sure that the voltage settings of the power supply have been adjusted to the voltage standard values used in the country/region. If you are not sure what the supply voltage value is in your area, please ask the local power company personnel nearby.
- ✧ If the power supply is damaged, please do not attempt to repair it by yourself. Please seek the help of professional technical service personnel.

Safety in operation

- ✧ Before you install modules and add hardware devices, be sure to read the relevant information provided in this manual in detail.
- ✧ Before using the product, make sure that all the data lines and power lines are connected correctly. If you find any defects, please contact Goodview as soon as possible.
- ✧ In order to avoid electrical short circuit, make sure that all unused screw, paper clip and other parts are put away, and do not leave them on the module or in the equipment.
- ✧ Dust, moisture and drastic temperature changes will affect the life of the motherboard, so please try to avoid placing them in these places.
- ✧ Do not place the equipment in a place that is easy to shake.
- ✧ If there are any technical problems in the use of this product, please contact the technicians who have been verified or experienced.

Chapter III. Product Parameter

3.1. Main Technical Parameters

NO	Subtype	Name	Parameter	Unit	Note
1	Product Parameter	Panel	43 inches LED backlight		
2		Product size (mm)	964.6(H)×552.5 (V)×71.4(D)	mm	
3		Active size (mm)	941.2(H) ×529.4(V)	mm	
4		Color	Black		
5		Weight (Gross)	13.85	KG	
6		Weight (Net)	9.9	KG	
7		Speaker	2×10W	Watt	
8		Display direction	<input checked="" type="checkbox"/> Vertical <input checked="" type="checkbox"/> Horizontal		
9		OSD Language	Chinese\English		
10		Play mode	<input checked="" type="checkbox"/> Horizontal <input checked="" type="checkbox"/> Vertical <input checked="" type="checkbox"/> Split display <input checked="" type="checkbox"/> Play List		
11		Multimedia transmission	USB,LAN,WAN		
12	Function	Smart volume	Time sharing volume		
13		Watch dog	Support		
14		Timer	Multi-period timing switch		
15		Management software	B/S framework: GTV Information Distribution System		
16	Core	CPU	Quad-core A55		
17		GPU	Mali G52MP2		
18		Memory	4GB

3.1.1 LCD Panel Technical Parameters

	Symbol	Parameter			Unit	Note
		Min	Typ	Max		
LCD Panel Size		-	43	-	inches	Led backlight
Active Screen Size		941.2(H) x529.4 (V)			mm	
Pixel Format		3840×2160			Pixels	
Panel Luminance			500	-	cd/m ²	
Product Luminance			500	-	cd/m ²	
Contrast Ratio	CR		5000	-		
Color Depth		10bit, 1.07 Billion colors				
Pixel Pitch		0.2451*0.2451			mm	
Color temperature			-		K	
Color Gamut			72%			
Response Time	G to G BW	-	6.5		ms	
Backlight Life Time		-	50000	-	Hrs	
Viewing Angle	Xaxis,right=0°	R	89	-	-	
	x axis, left=180°	L	89	-	-	
	y axis, up =90°	U	89	-	-	
	yaxis, down=270°	D	89	-	-

1366x768	@60Hz/50Hz
1440x900	@60Hz/75Hz
1680x1050	@60Hz/50Hz
1920x1080	@60Hz/50Hz

3.3. Specification Overview

3.3.1. AC Input Electrical Characteristics

Item	Symbol	Values			Unit	Note
		Min	Typ	Max		
AC Power Input Voltage	AC IN	100	220	240	VAC	
AC Power Input Current		-	-	2.5A	AAC	
Power Consumption		-	-	250	Watt	

3.3.2. Green mode function

Item	Symbol	Values			Unit	Note
		Min	Typ	Max		
Stand-by power consumption		/	/	0.5	Watt	

3.4. External Interface Portion

NO	Subtype	Name	Number	Parameter
1	Ac input	Coupler	×1	Torx tail
2		AC Switch	×1	Rocker switch

File Type	<input type="checkbox"/> Management guide <input type="checkbox"/> Program File <input type="checkbox"/> Management standard <input checked="" type="checkbox"/> Technical manual <input type="checkbox"/> Standard class <input type="checkbox"/> Inspection specification <input type="checkbox"/> Inspection guide <input type="checkbox"/> Inspection standard <input type="checkbox"/> Guidance file <input type="checkbox"/> Technical standard						
File Code	GV-RD-PJ-039	Version	V1.0	Product model	M43GUQ	Page	18

3	Input/output Terminals	HDMI	×2	Supports HDCP 2.1, CEC, ARC (HDMI 1), up to 4K@60Hz
4		Type-c	×1	Video, audio, external charging 65W, LAN network sharing
5		HDMI OUT	x1	Maximum support 4K@60Hz , only supports HDMI IN signal output, not Android channel signal output
6		Audio out	x1	3.5mm headphone connector
7		SPDIF	x1	PCM output format
8	Control Terminals	Ethernet RJ45	×1	10M/100M/1000M Ethernet
9		WiFi	×1	2.4/5G WiFi IEEE802.11b/g/n
10		USB2.0	×1	For system upgrade
11		USB3.0	×1	External USB flash disk, mouse and other peripherals
12		RS232	×1	Baud rate 115200

Chapter IV. Mechanical Portion
